February 29, 2008

Dear Valued Customer:

In order to meet the demands of our customers, Speedline Technologies is continually developing new products & features for our broad product line. As part of our product life cycle planning process, we are continually replacing older equipment with improved product designs. This time-phased process allows us to take advantage of the latest technology available to provide enhanced manufacturing equipment to our customers.

As a result, effective February 29, 2008, Speedline Technologies will stop manufacturing the Accel HydroCel cleaning system. Although we will no longer manufacture this system, we will continue to provide the same high quality of service that our customers have come to expect from us. We will continue to provide technical support and spare parts for the HydroCel in accordance with best industry practices.

We apologize for any inconvenience this may cause. If you are interested in learning more about our products and services, please contact your local Speedline Technologies representative or visit us at www.speedlinetech.com.

Sincerely,

Dirk Ellis
Accel & Electrovert Cleaning Equipment Product Manager
